

Effortless Valve Repair with Fisher™ easy-e™ Trim Cartridge

FISHER™ Minimize inventory, training and repair complexity

Available time for maintenance is limited

All control valves require periodic maintenance. In most cases, that means extensive parts inventory, staff training, repair budgeting and service time are required. Even the best planning may not account for all the unseen variables such as: additional parts that need to be replaced, unanticipated damage and associated costs, in-line repair versus bench repair and special equipment to remove and reinstall. It becomes increasingly difficult to plan for these variables, all of which make valve repair hard to predict.

Simplify inline valve repair using a pre-assembled cartridge

The easy-e™ Trim Cartridge is a complete trim repair solution for Fisher™ easy-e globe valves. The pre-assembled cartridge includes all standard trim replacement parts plus the valve bonnet. This means no matter what trim or bonnet repair issues exist, a Trim Cartridge will likely fix them. The simplistic nature of the assembly helps enable faster inline valve repair, without the need for expensive equipment.

By making the Trim Cartridge part of your parts inventory you have the opportunity to vastly improve your control valve maintenance readiness. You'll be able to more accurately budget repair time and resources, minimize your spares inventory, and keep repairs on schedule. The easy-e Trim Cartridge should give you full confidence that you're ready for whatever the next maintenance request throws at you.

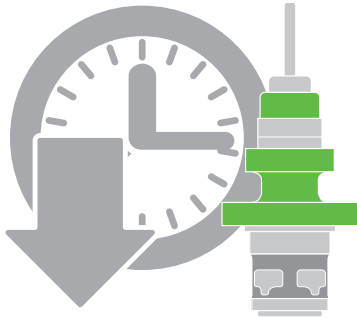

Fisher easy-e Trim Cartridge

EMERSON. CONSIDER IT SOLVED.™

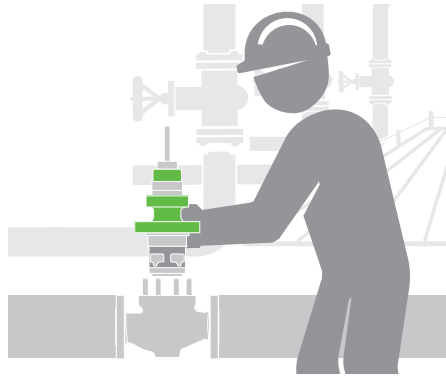

Be confident in servicing your easy-e control valves with Trim Cartridge technology

Trim Cartridge is a hybrid repair solution that combines the 20+ traditional repair parts into one preassembled repair cartridge.

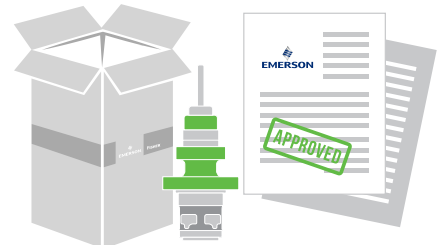

Decrease trim repair time by 60%

A more than 20 part repair process has been reduced down to a single, ready to install trim repair cartridge.

Simplified in-line repair

A complete trim and bonnet replacement package helps to eliminate the potential for any surprise repairs.

Predictable repair and part replacement

The pre-assembled Trim Cartridge comes with standard OEM Fisher valve warranty and is serialized to help simplify the procurement and inventory of repair parts.

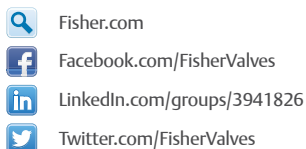

Additional Product Benefits

- **Mitigate Fugitive Emissions** with standardized ENVIRO-SEAL™ packing . Available in PTFE, Duplex, or Graphite ULF.
- **Class V Shutoff Capable** through factory seat leak testing of each Trim Cartridge assembly.
- **Genuine Fisher OEM Parts** are designed to the specification of the control valve and application, assuring maximum, long-term reliability.
